

Attachments for Sweeper

Attachments for Sweepers - AUSA forklifts offer ultimate functionality and are really known for their compact, ergonomic and highly modular design. They offer versatility and stability when handling loads on the job location and are considered extremely dependable. With respect to other lift trucks, AUSA models have a big diameter of their wheels that helps to ensure favorable load suspension in the cabin and in the forks. This allows the forklift to generate an optimum working productivity over uneven and variable surfaces.

AUSA company headquarters are located in Manresa, Spain which is situated in the interior of the territory of Barcelona. The production factory is likewise at this location and features a total surface area of more than sixty four thousand square meters. AUSA has subsidiaries situated in the Florida, China, UK, Germany, Madrid and France. The company exports more than sixty percent of the equipment they producer and advertises its products all through two hundred twenty five distributors all over 70 nations.

Each of the AUSA forklifts is obtainable equipped with an automatic hydrostatic transmission. This offers accuracy of movement and automatic braking in deceleration of the forklift which gives this machine an added level of productivity and safety. The hydrostatic transmission allows the operator to quickly adjust to the forklift which is essential if the load is not easy to handle and whenever terrain circumstances are complicated.

The operator cabin on the AUSA forklift is the only one obtainable which is frontal-folded to allow easy and efficient access for periodical maintenance. Highly modular, these cabins are available open, semi-closed or soundproof closed. For northern weather conditions heated cabins are a choice, plus, air conditioning is integrated in a back post of the cabin. A wide range of attachments, tire widths and grips are even existing so as to suit whichever of the forklift units.

The world's best in compact equipment, AUSA even specializes in urban sweepers, site dumpers and tool carrier vehicles. With service and sales all around 70 countries within 5 continents and over 200 sales depots all around the world, AUSA is an industry leader.
